## Humidity Optimization Equipment

- ☀ To maximize comfort and indoor air quality, our sophisticated mechanical system will include 4 dehumidifiers, 1 humidifier, and 1 fresh air Energy Recovery Ventilator (ERV), provided by AprilAire.
- ☀ The AprilAire units will be seamlessly integrated into our Mitsubishi Electric HVAC system to continuously monitor humidity levels and automatically engage when necessary.
- ☀ AprilAire offers some of the most energy-efficient options on the market. Their new Model 8100 ERV uses the unique EnergyMax<sup>®</sup> transfer core to maximize heat transfer and remove moisture in the process.
